CAMP-FIRE STORIES.

THE CHILD-SOLDIER.

A Four-Year-Old Toddler Prevents a Bloody Skirmish.

Summer of 1864! But though the skies were blue and cloudless and the earth radiant in her robe of green, with flowers beautiful and fragrant on her in two, an' dat's de tree wif the bark on bosom, the hearts of men and women it. Now, I'm gwine take dis chile home were heavy and sorrowful, for the roll- to his ma, an' you jus' better pick up ing smoke of cannon hid the very heav- your weppins, an' go 'long an' tend to yo' ens and stains redder than the field pop- business. Gimme dat sword here!" And pies dyed the grass, while the rattle of musketry and the tread of marching struggling, shricking charge, followed men drowned the songs of the birds and the sound of weeping startled them into which, however, won no notice from the silence. The fair hills of Virginia distainful Aunt Dicey. looked down on carnage and sights too pitiful to name, and her rivers ran red with the blood of many a gallant soldier for whom a gray-haired mother or tender wife and children wept in their which had fallen off and been forgotten be composed of the president, vice-presithe sunny skies of Dixie-

But nestling close to the rugged side of the mountain, like a sparrow's nest under the grim buttresses of some old castle, the little village of Cloverside back in place. The two bands then heard only from afar those dreadful sounds that told of death and sorrow. Sometimes a newly-raised regiment, marching down to join the force about Richmond, would go by gay in uniform and fluttering flags-alas, alas! how soon to have their bravery torn by shot and dimmed with bloody dew.

These splendid cavalcades went by watched with frantic envy by two big eyes like twin wood violets from the window of a pretty white house that stood half way up the mountain, and was the home of one fair, gentle lady to whom Manassas had meant widowhood. These pretty wistful eyes were the baby's whose heart swelled at the martial music until it grew too much for a four-year-old to stand, and so he declar- the gray were at each other's throats. ed his fixed and desperate resolution to become "a soldier too." Sec. 2. All names for membership shall be consent.

Sec. 3. Members are required to be punctpal in attendance, and shall perform such literary duties as the Alliance may require. Sec. 4. Any member failing to do his duty may be fined, suspended or expeled, but no member shall be fined or suspended except when actually present and by a two-thirds vote of the members present.

Sec. 5. No member shall be expeled without two weeks' notice of such action, and for a good and sufficient cause. A concurrent vote of two-thirds of all the members of the Alliance shall be requisite to expel a member, and no person expeled from one Alliance shall be permitted to join another, unless the disqualification is removed by the State or National Alliance. ARTICLE VI.-QUORUM.

Five members shall constitute a quorum for the trasaction of business.

ALLIANCE DEMANDS

Arguments Presente ! Before the House Ways and Means Committee.

Mr. Macune, representing the Farm ers' Alliance, recently made argument before the ways and means committee of the House of Representatives in favor of the bill to establish sub-treasuries for the receipt of agricultural products. He was questioned by members of the committee respecting the details and probable effect of the bilt. Mr. Bayne wished to know if one effect would not be to encourage over-production. Mr. Macune replied that it would not, for just as soon as the farmers' calling became more profitable than others there would be an influx of men into that business which would result in a reaction and finally the restoration of an equilibrium. To his mind no fixed volume of currency, no matter how great, would meet the needs of agriculture. It wanted an elastic medium. The farmer sold his crops in the fall when prices were lemest and bought his supplies before all fees and turn over or account to the harvest, when prices were highest. Crops were marketed in two or three months of the year, and this market annually caused a great stringency in money. Mr. Flower feared this plan would lead to banking on live-stock, iron, lead and silver ore. They were getting along now in the latter di-Capitol. In time we would have mended by physicians. We consider it inevery thing "in hock." In the course of ten years the Government would be nursing the children and the women working in the field. The true remedy for the farmers' ills was the manufacturers' plan. They should regulate production. Raise only enough produce to meet the people's wants and thereby get fair prices. Mr. Macune proceeded to explain the process proposed to regulate the issue or produce inth, M'ss. certificates. He said that the necessity for excluding imports of agricultural products was obvious if the quality of the certificates was to be preserved. The certificates would constitute the soundest and best currency in the world. Probably not one-half of the ever sold. Druggists sell it, 75c. fifty million-dollar appropriation asked for to put the new machinery in action would be required, but the sum should not be absolutely fixed at a minimum, as in time it would be necessary to extend the system to include all of the products of labor not covered by patents. In conclusion, Mr. Macune said that the Nation-

al Alliance had not sent out a single

printed petition, and that those peti-

tions and demands now pouring in upon

Congress were the spontaneous offer-

States, who were convinced that they

knew what they wanted and were go-

ing to have it. Mr. Livingstone, the National lecturer of the organization, took up the argument. He quoted President Lincoln's prophecy that corporations would be enthroned; that the property of the country would be concentrated and that the Republic itself would be overthrown. Thank God, the last Lawrence American prediction had not been fulfilled. But the others had been. One-twentieth of the people of this country owned threefifths of the property. He also quoted Garfield, Jefferson and Calhoun, and said that what they recommended was just what the Alliance asked. If Congress refused to approve the sub-treasary plan, let it remove the restrictions hedging in the National banking system. The farmers would care nothing about trusts and combinations and concentration of money if they could hold their crops in sub-treasuries and were not compeled, as at present, to sell them at stated times-in October in the South. He could thus escape the speculator. It would be a god-send to this country to pass the sub-treasury bill for the reason, if for no other, that there would not be a bucket-shop left in the United States. The day of speculation in crops would be done away with, and the producer and the consumer would be brought together. It had been charged that the farmer would form a trust, but this was against the farmers' nature. Sixteen million dollars would build all the warehouses the Alliance wanted. What good were river and harbor improvements to the debt-ridden, oppressed farmer? Never more than a third of the cotton crop would be warehoused. When the certificates issued on that crop came in they would meet the needs of the wheat crop, and then the tobacco crop, and so on. There would not be excessive changes in the volume of the currency. In conclusion, he said, that if the committee thought the landed basis was the best: if it could not accept that crop basis let it put it in the bill. Do something to relieve the farmer. Remake it a question of tariff or of pol-

ities, but let the bill stand on its merits. A LAWYER'S RETIREMENT. He Sees the Handwriting on the Wall and

Gracefully Yields.

The character of the State canvass in Georgia may be judged from the experience of Colonel B. S. Walker, a prominent lawyer, who aspired to the State Senate. In his card withdrawing from further pursuit of his ambition he says: "It is a well-known fact that there has always existed strong any member on request; to collect all fees | against lawyers. This feeling has been greatly intensified by the formation of the Alliance, and after a thorough canvass of most of the ance almost to a man actively supporting my opponent. They regard my canthough many of them preier me person ally, yet for the sake of the order they feel bound to stand together. With the almost solid Alliance vote and influence against me, the chances are necessarily against me, and without further waste of time, and to release my friends from the race.'

This explains the situation all over the State, the boycott of the lawyer being universal,

Worthy of Trust. A tourist climbing up a mountain side doesn't want a small, limber or rotten stick. No, he wants a stout staff that will bear his whole weight, one that he can lean on in confidence, one that is worthy of trust and that will uphold him should his feet slip. So an invalid, in search of health. They dis-like to fall into the hands of a doctor and be experimented with. They want to use the proper remedy for their allment in the start. They are only willing to take medicine on condition that it will make them well. Now there is one remedy whose effect is a certainty. It has been tried and tested in thousands of instances and has never once failed. It is called Smith's Tonic Syrup. Its principle was discovered by the eminent Dr. John Bull, of Louisville, Ky. It is pleasant to take, and possesses all the good medicinal qualities of quinine, but is free from all its objectionable qualities. It will cure chills and fever when quinine fails. It will also prevent and cure colds, influenza, la grippe, etc. Its influence is positive, and it is a remedy worthy of trust.
